

種畜禽研究團隊 種鴨供應進度及產能 工作報告

報告單位：宜蘭分所

報告人：黃振芳

中華民國99年9月10日

產能—褐色菜鴨

- 保生種鴨場(99.04種鴨場登記)
每年生產40~50萬隻雛鴨。
- 歐建明畜牧場
每年生產16萬隻雛鴨。

產能—北京鴨

- 興農種鴨場(99.07種鴨場登記)
每年生產200萬隻雛鴨。
- 鎮源畜牧場
每年生產168萬隻雛鴨。
- 博士鴨畜牧場
每年生產90萬隻雛鴨。

產能—白色番鴨

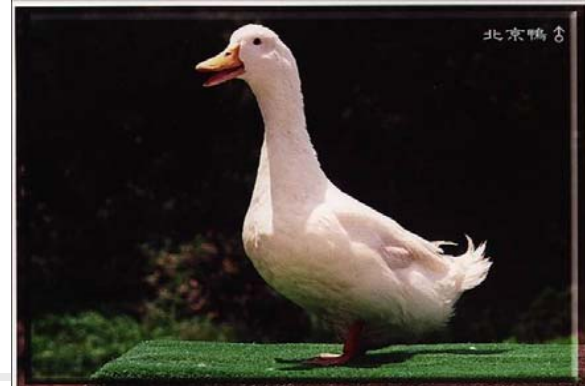

- 吳進興畜牧場
每年生產35萬隻公雛鴨。
- 吳丁貴畜牧場(99.10將從分所購置種鴨)
每年生產15萬隻公雛鴨。
- 林來發畜牧場(99.09已自分所購置種鴨)
每年生產35萬隻公雛鴨。

供應進度—褐色菜鴨

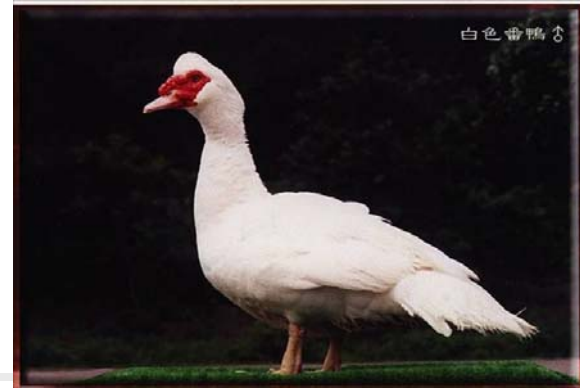

- 99.08.01完成全產青殼蛋褐色菜鴨雛共應體系技術移轉案，並經99.08.31中華民國養鴨協會召集蛋種鴨業者，由分所進行相關性能及飼養管理說明。
- 保生種鴨場(99.04種鴨場登記)、歐建明畜牧場、何榮紘畜牧場。

供應進度—北京鴨

- 與中華民國養鴨協會產學合作「大體型北京鴨供應」計畫技術移轉乙案，業經工研院農業策進辦公室完成鑑價作業。
- 定期供應雛鴨(本年度本分所供應受精蛋逾28000枚給種鴨業者)。
- 興農種鴨場(99.07種鴨場登記)、鎮源畜牧場、博士鴨畜牧場。

供應進度—白色番鴨

- 吳進興畜牧場(預計100年從分所購置種鴨)。
- 吳丁貴畜牧場(99.10將從分所購置種鴨)。
- 林來發畜牧場(99.09已自分所購置種鴨)。

供應進度—其他

Dear Mr. John Aschenbrenner

I am the director of the Ilan Branch, Livestock Research Institute, Council of Agriculture.

Your email to Mr. Long-Cheng Hsiao (Ghu Nung Enterprise) regarding purchasing preincubated mule duck eggs was forwarded to me. He requested my help to respond to you that he wanted to say sorry to you that he was not able to export the preincubated mule duck eggs at this moment.

In Taiwan, we still have other farms to produce mule ducks. So if you can provide some informations like how many eggs you would like to purchase per month (or per year), what's your purpose of the mule ducks.... I may contact some other farms which may be interested in this business. In addition, we have a lot of experience to export preincubated eggs to Southeastern Asian countries. However, the time period exporting preincubated eggs to the US is much longer than the southeastern Asian countries. We are also need the US quarantine regulation of importing preincubated eggs from other countries. For exporting the eggs, our farm needs to go through some paper work to the government too. That's why our farms need your information to evaluate this business.

Sincerely,

Jeng-Fang Huang, Ph.D.

供應進度—其他

Dear Mr. kumar,

I am still waiting for your quarantine formalities.

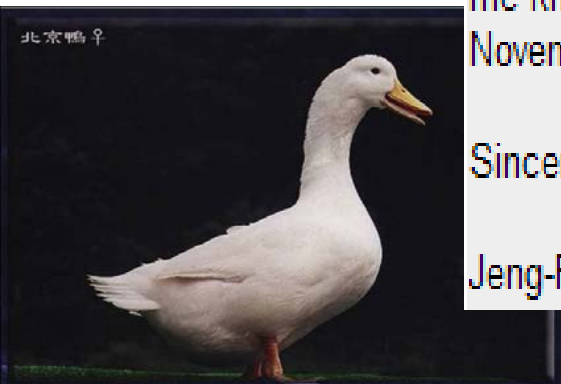

I also would like to inform of you that duck breeders in Mr. Lin's farm are getting old and he is planning to reproduce his next-generation ducks. This may affect the timing to deliver the ducklings to you. His planned schedule is to collect the eggs for you between 12-24 July then the ducklings will be hatched around 22 August. The document processing in my side should be enough if we start now.

If we miss this schedule, the next time to collect the eggs will be at the end of October and the ducklings hatched will be at the end of November.

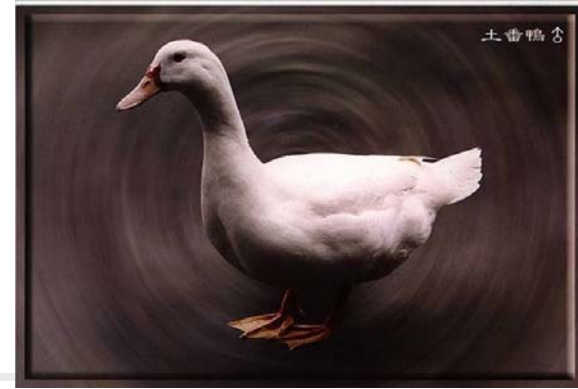

You may need to check with your broker to see if this schedule is OK. And please let me know as soon as possible what time of hatching (around 22 August or end of November) is more convenient to you.

Sincerely,

Jeng-Fang Huang
