1. Reproductive Herd

Technology need

Heifers replacement Farm Calf replacement Farm

cows Tropical HF

Use upgrading native cows

- Produced crossbreed Tropical HF contain 82.5-93.75 % HF
- Use AI 100 %

2. Feed management

Technology need

Soybean meal + Waste beer + Cassava

- Lack of pasture In dry season
- Raw material feed from nearby factories such as: pineapple shell, corn stem, cassava shell and palm cake
- few Silage

3. Health and hygiene management

- poor reproductive performance
- health problems

Technology need

- Record herd analysis
- DHI program

11

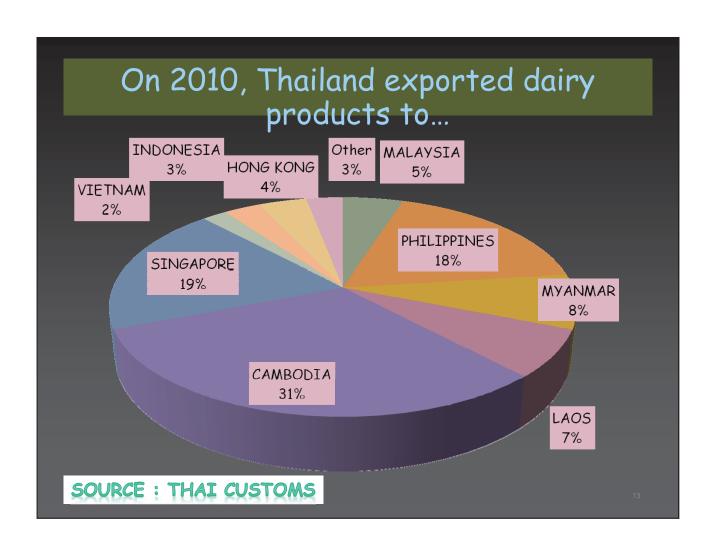

4. Quality milk control

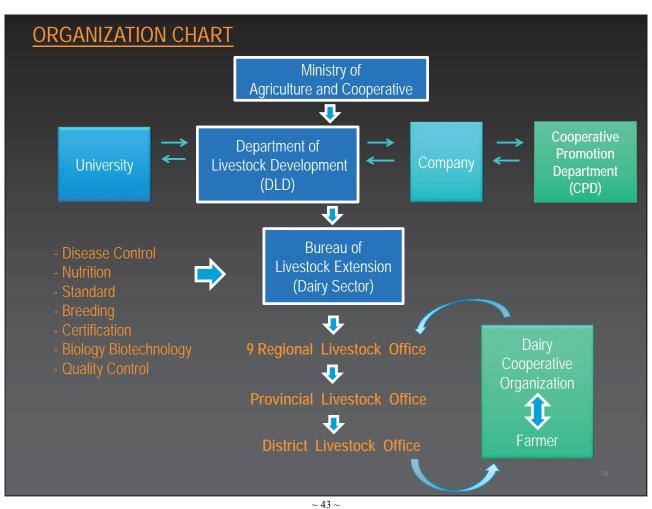

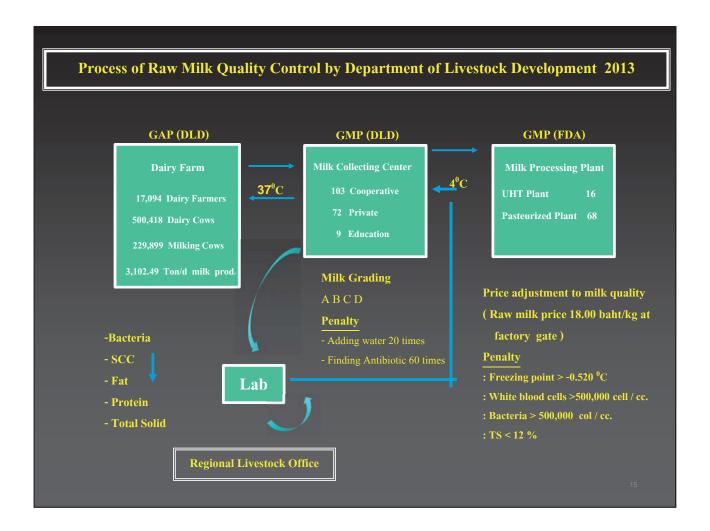

Technology need

- Cooling chain
- Cooling tank in farm
- Decrees milking time
- Establish standard milk quality
- Good Agriculture Practices Farms
- Good Manufactories Practice -MCC

12

5.Farm management / Production cost

- Add knowledge in farm by Advisor from University
- Lack of Labour

Technology need

- IT Program/RFID Tags
- Equipment/machine
- Dairyman Job certificate

16

6.Marketing/Sustainable

- between MCC & enterprises

Technology need

- Extension high quality milk from factory
- Young dairy farmer idol

Thank you for your attention
