

RUMINANT PRODUCTION IN REGION 8 PHILIPPINES

Eastern Visayas

A Presentation during the Interactive and Experiential Learning Activity in coordination with the National Livestock Research Institute of Taiwan on January 26 – 31, 2016

Dr. Renato P. Distrajo

DEPARTMENT OF AGRICULTURE
Regional Field Office No. 8
Kanhuraw Hill, Tacloban City

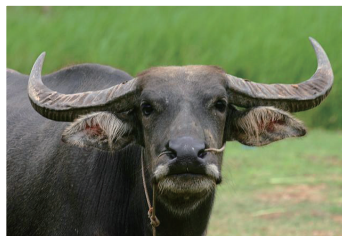

Outline of the Presentation

I. INTRODUCTION/BACKGROUND

- A. Map of Region 8, Philippines
- B. Volume of Production of Ruminant Animals in Region 8, Philippines
- C. Inventory of Ruminant Animals in Region 8, Philippines

II. RUMINANTS PRODUCTION SYSTEM IN REGION 8, PHILIPPINES

- A. Methods of Raising
- B. Breeds and Breeding
- C. Pasture/Forage Development and Management
- D. Housing
- E. Animal Health Management

I. INTRODUCTION/BACKGROUND

A. Eastern Visayas Region Philippines

6 Provinces

Leyte
So. Leyte
Biliran
Samar
Northern Samar
Eastern Samar

7 Cities

136 Municipalities

B. Volume of Production of Ruminant Animals in Region 8, Philippines

COMMODITY	ACTUAL PRODUCTION, mt				
	2011	2012	2013	2014	2015*
Carabao	10,838	11,210	11,257	11,368	-
Cattle	2,394	2,267	2,483	2,293	-
Goat	1,448	1,283	1,130	881	-

II. RUMINANT PRODUCTION SYSTEMS IN REGION 8

7

Production Systems of Ruminant Animals in Region 8, Philippines

90 % Backyard Production

10 % Commercial Production

8

Production Systems of Ruminant Animals in Region 8, Philippines

A. Method of Raising Ruminants – Large Ruminants

1. Tethering using a rope

9

Production Systems of Ruminant Animals in Region 8, Philippines

A. Method of Raising Ruminants-Large Ruminants

2. Range Method

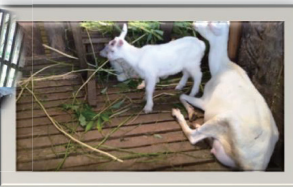

10

Production Systems of Ruminant Animals in Region 8, Philippines

A. Method of Raising Ruminants-Small Ruminants

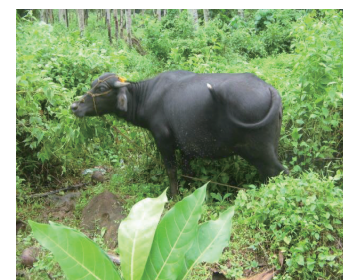

1. Grazing
2. Pure Confinement
3. Tethering

11

B. Breeds of Ruminants

Native Carabao

Upgraded Carabao

12

Breeds of Goat

Boer

Anglo-Nubian

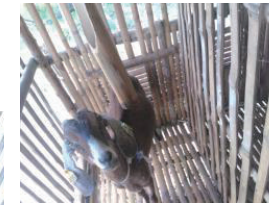

Saanen

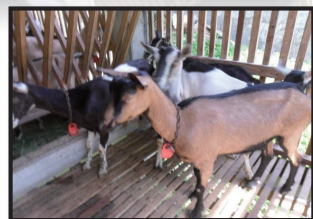

Toggenburg

Upgraded Goats

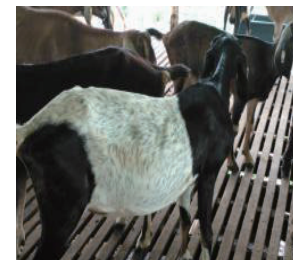

Imported Goats & Sheep

Imported Goats & Sheep – FMC Farm, Babatngon, Leyte

Breed	Buck	Doe	Whitening		Tot
			M	F	
A. Nubian	3	26	4	8	58
Native	4	1	2		7
TOTAL					7

Upgraded Goats

17

Methods of Breeding

- A. Natural method
- B. Artificial Insemination
- C. Genetically superior breeders for both natural and artificial breeding as assistance from the government

C. Pasture Management

Forage Development

20

D. Housing

E. Animal Health Management

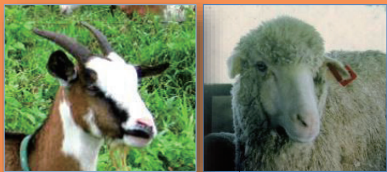

- Deworming/deflucking
- Giving vitamins and mineral supplements
- Vaccination against Hemorrhagic septicemia
- Giving of antibiotics to sick animals
