- **Animal Industry Act of Taiwan:** Article 12-2 New breed or new strain of breeding flock or breeding stock incubated or discovered by an employee should be registered with the name of the employer unless it is otherwise specified in the contract.
- Applicants who apply for registration of breeding stock and fowl or genetic resource in accordance with **Article 12** of the Act should fill out application forms and submit the following documents.
 1. the certificate of the company, agency (institution) or farm
 2. the description of the process of incubation or discovery
 3. the rearing experiment report
 4. the physical object, product or its photo
 5. other documents designated by the central competent authorities
