

Congratulations 6th Meeting in Taiwan

- ✓ 1st Meeting: 17 - 18 November, 2011, Hungary
- ✓ 2nd Meeting: 21 - 22 November, 2013, Hungary
- ✓ 3rd Meeting: 16 - 19 November, 2015, Hungary
- ✓ 4th Meeting: 23 - 25 November, 2017, Spain
- ✓ 5th Meeting: 27-29 November, 2019, Japan

PORK QUALITY REQUIREMENTS AND FATTY PIG PRODUCTION IN EAST ASIA

Noboru MANABE, Ph.D.

Professor of Osaka International
University (Emeritus Professor of
The University of Tokyo)
Director of Japan National Livestock
Breeding Center (NLBC)
Director of Japan Livestock Industry

Japan National Livestock Breeding Center: NLBC

Index

- For the development of the livestock industry and a healthy diet in Japan

12 Stations to keep livestock seeds: Pigs, Cattle, Chicken, Forage crops etc.

Livestock Breeding Center

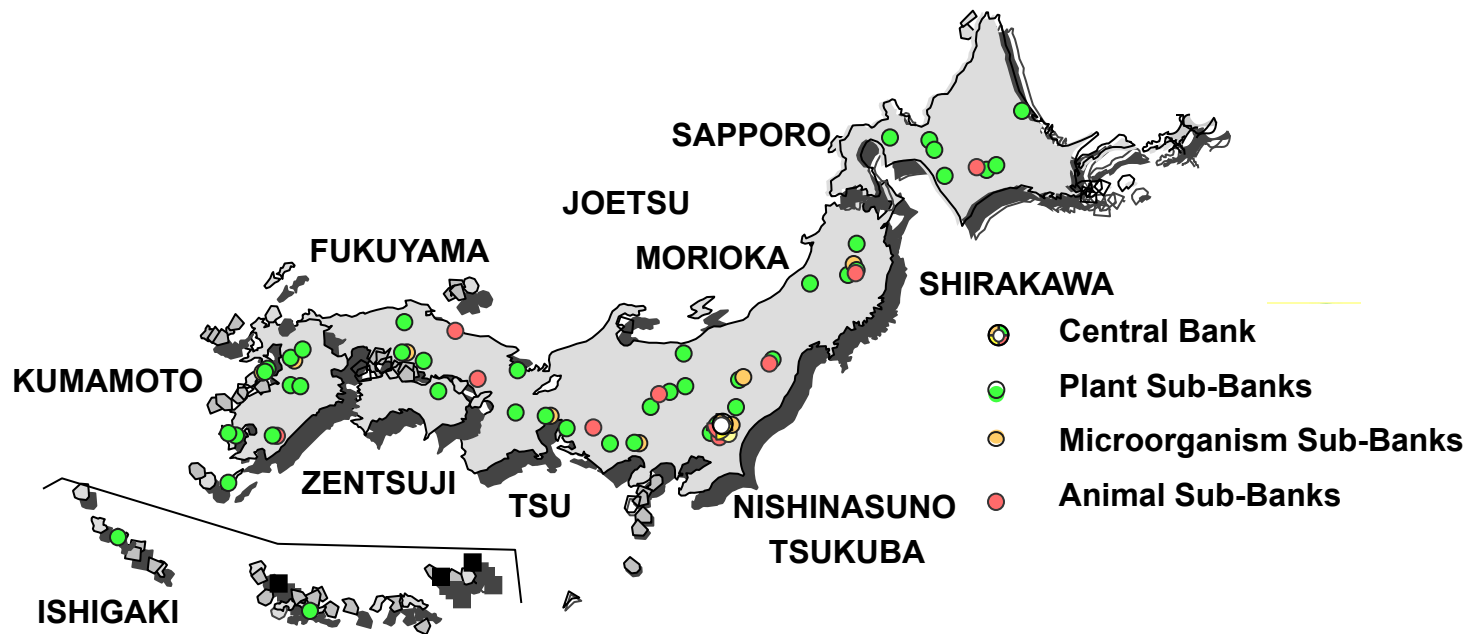

- Breeding of livestock animals and improvement of animal husbandry
- The Development and Implementation of Animal Evaluation System
- Research and Development-Developing new technologies and bringing them into practical use

Native Fatty Pigs in Asia

Reviewing the Asian native pigs from the perspective of SDGs

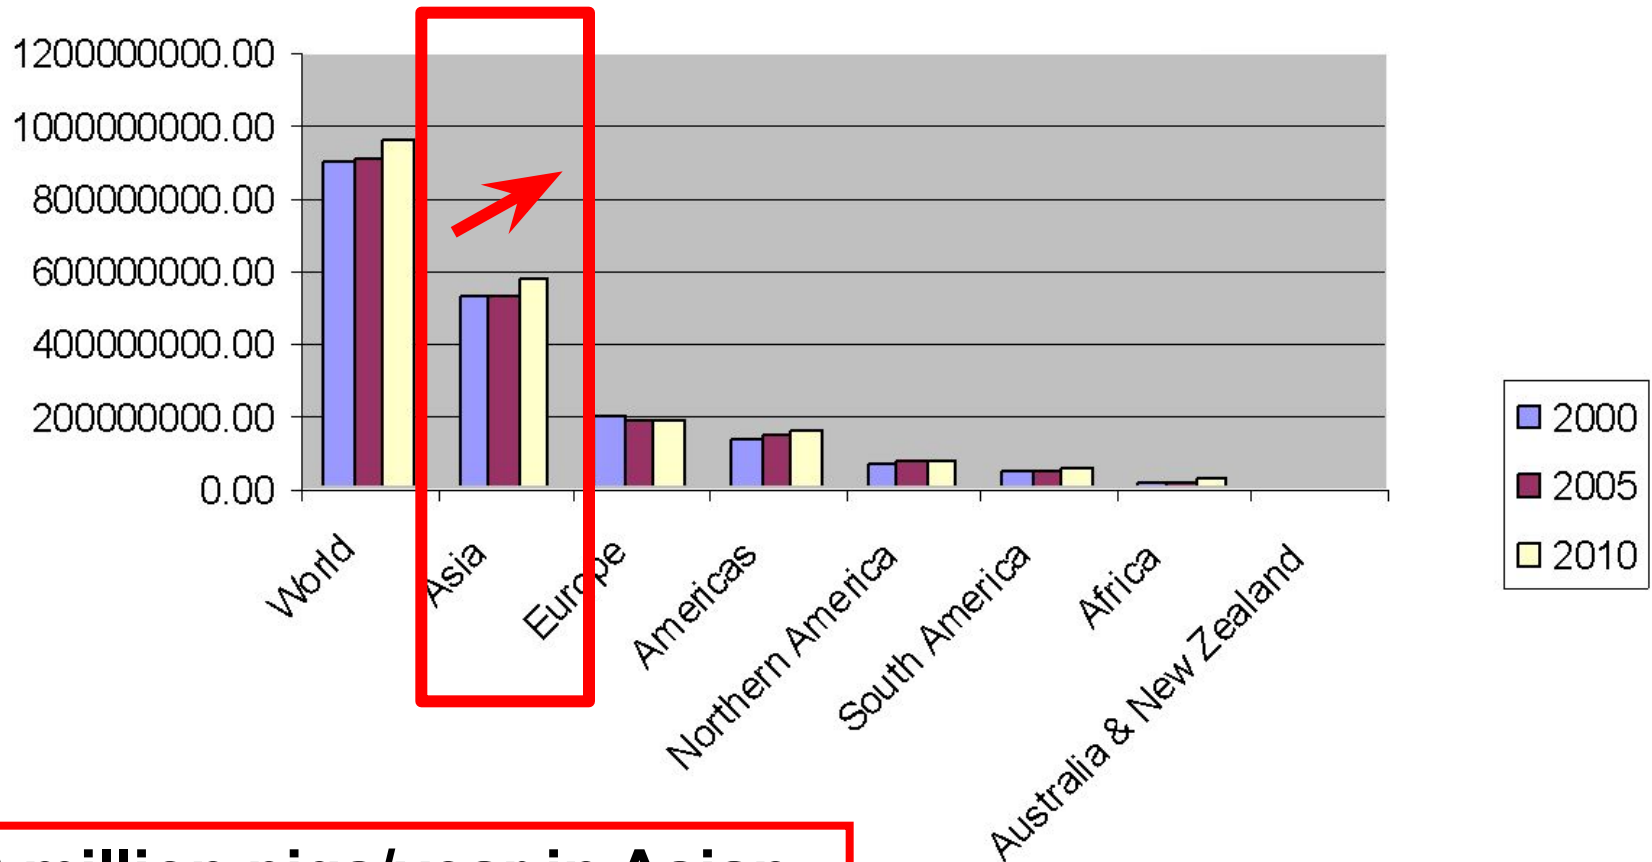

Pig production in the world

**600 million pigs/year
in East Asian countries**

**1,300 million pigs/year, and 100 million tons
of pork are produced.**

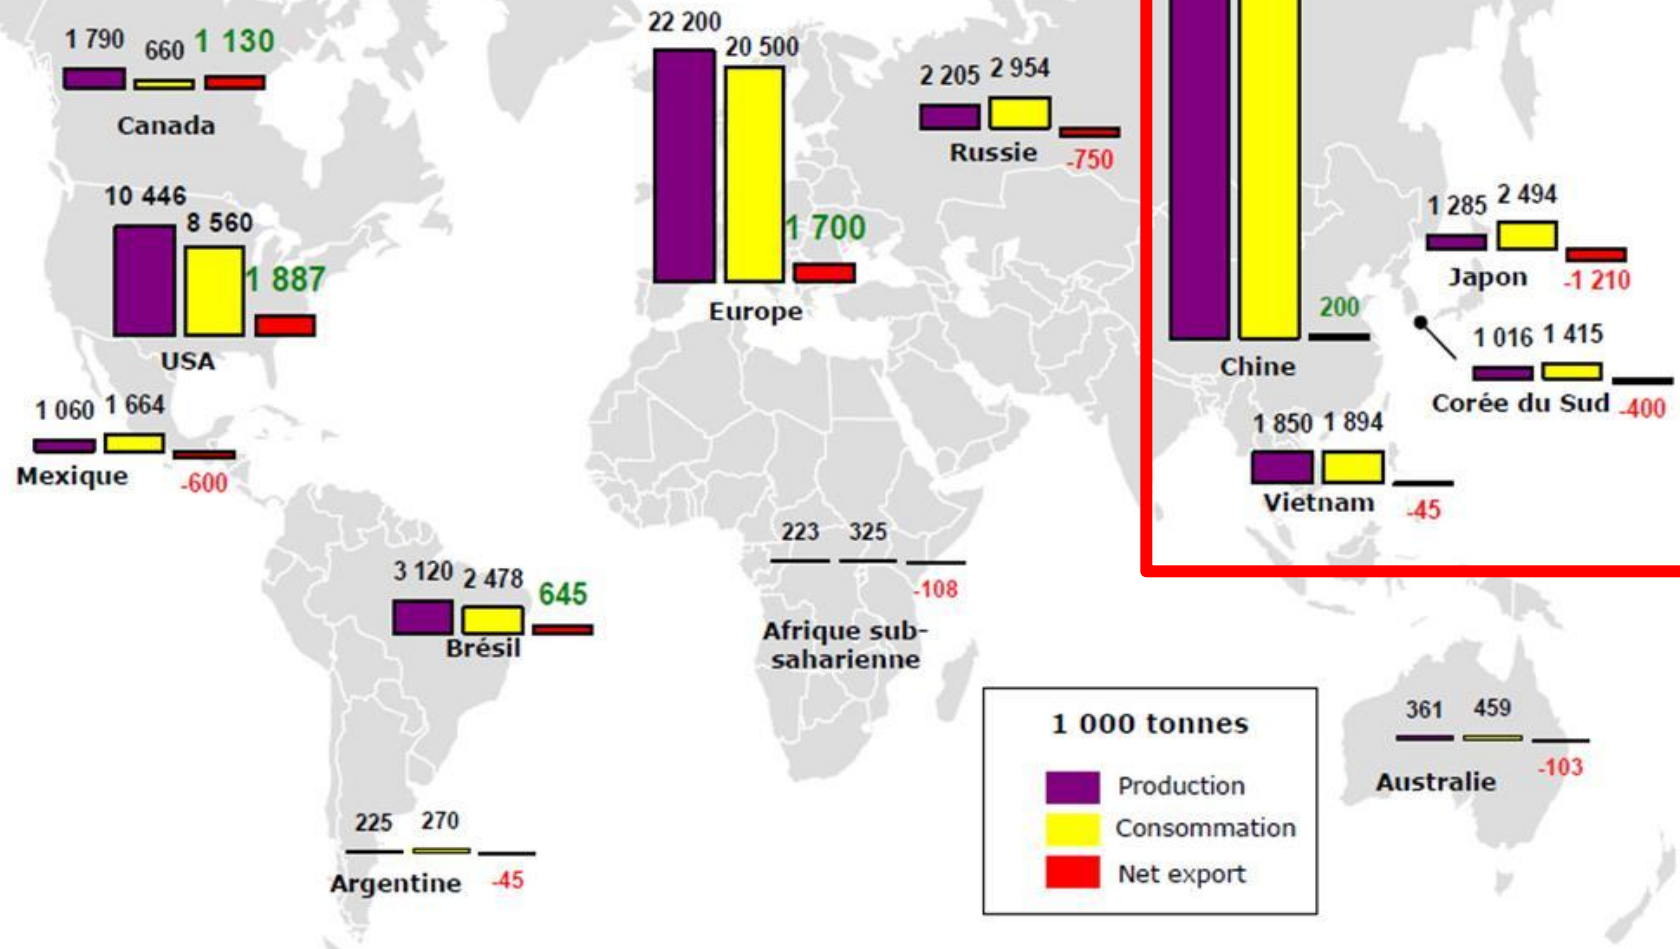

Increasing in pig production in the world

600 million pigs/year in Asian countries (2020)

Pork Production, Consumption and Trade

600 million pigs/year in Asian countries (2020)

Traditional animal foods in Asia

Demand for fatty food

In Asian countries, low-fat animal foods have been eaten on a daily basis.

Fatty pig population in the world

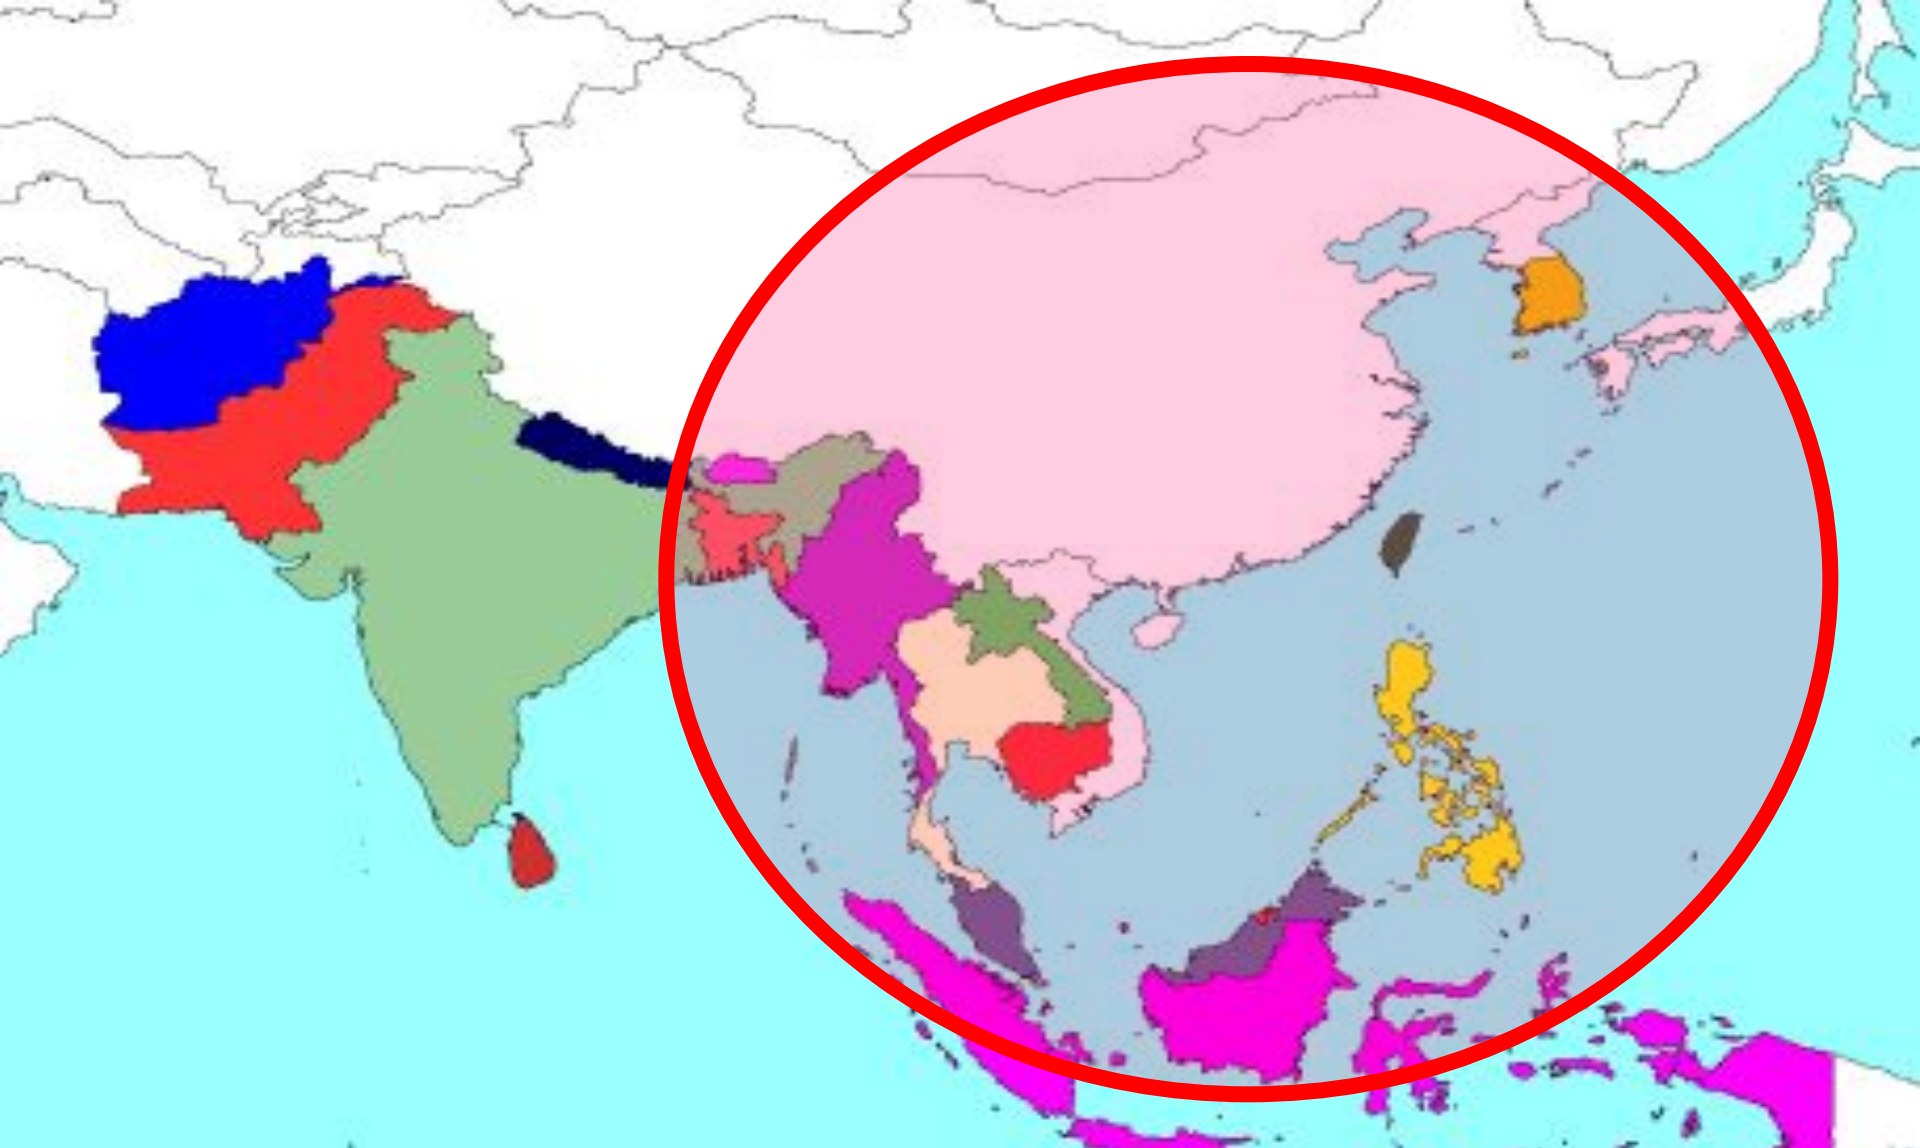

In Asian countries, the amount and quality of fat determine pork price (Market value).

Fatty pig production in would

- 1. Asian countries are huge pig production and pork consumption areas.**
- 2. In Asian countries, fat quality is very important point to evaluate the pork price.**

Very expensive marbling pork “produced in Japan”.

551 HORAI

ENJOY THE REAL TASTE OF GOOD EATING.

All the foods prepared by HORAI come out from our careful research,
over half century, of top flavors based on the Chinese gastronomy.
A myriad of people, grownups and children alike,
just love our characteristic menu,
and have made HORAI's name increasingly popular and famous.
Our eagerness to satisfy the eating pleasure of people will be
For the sake of it, we will always keep the HORAI foods up
and style in accordance with our customers.
Your continued support of our BUTAMANN
YAKI-GYOZA and ICE CANDY will be highly

Conclusion

- **Asian countries are huge pig production and pork consumption areas.**
- **In Asian countries, fat quality is very important point to evaluate the pork.**

Future for fatty pig project

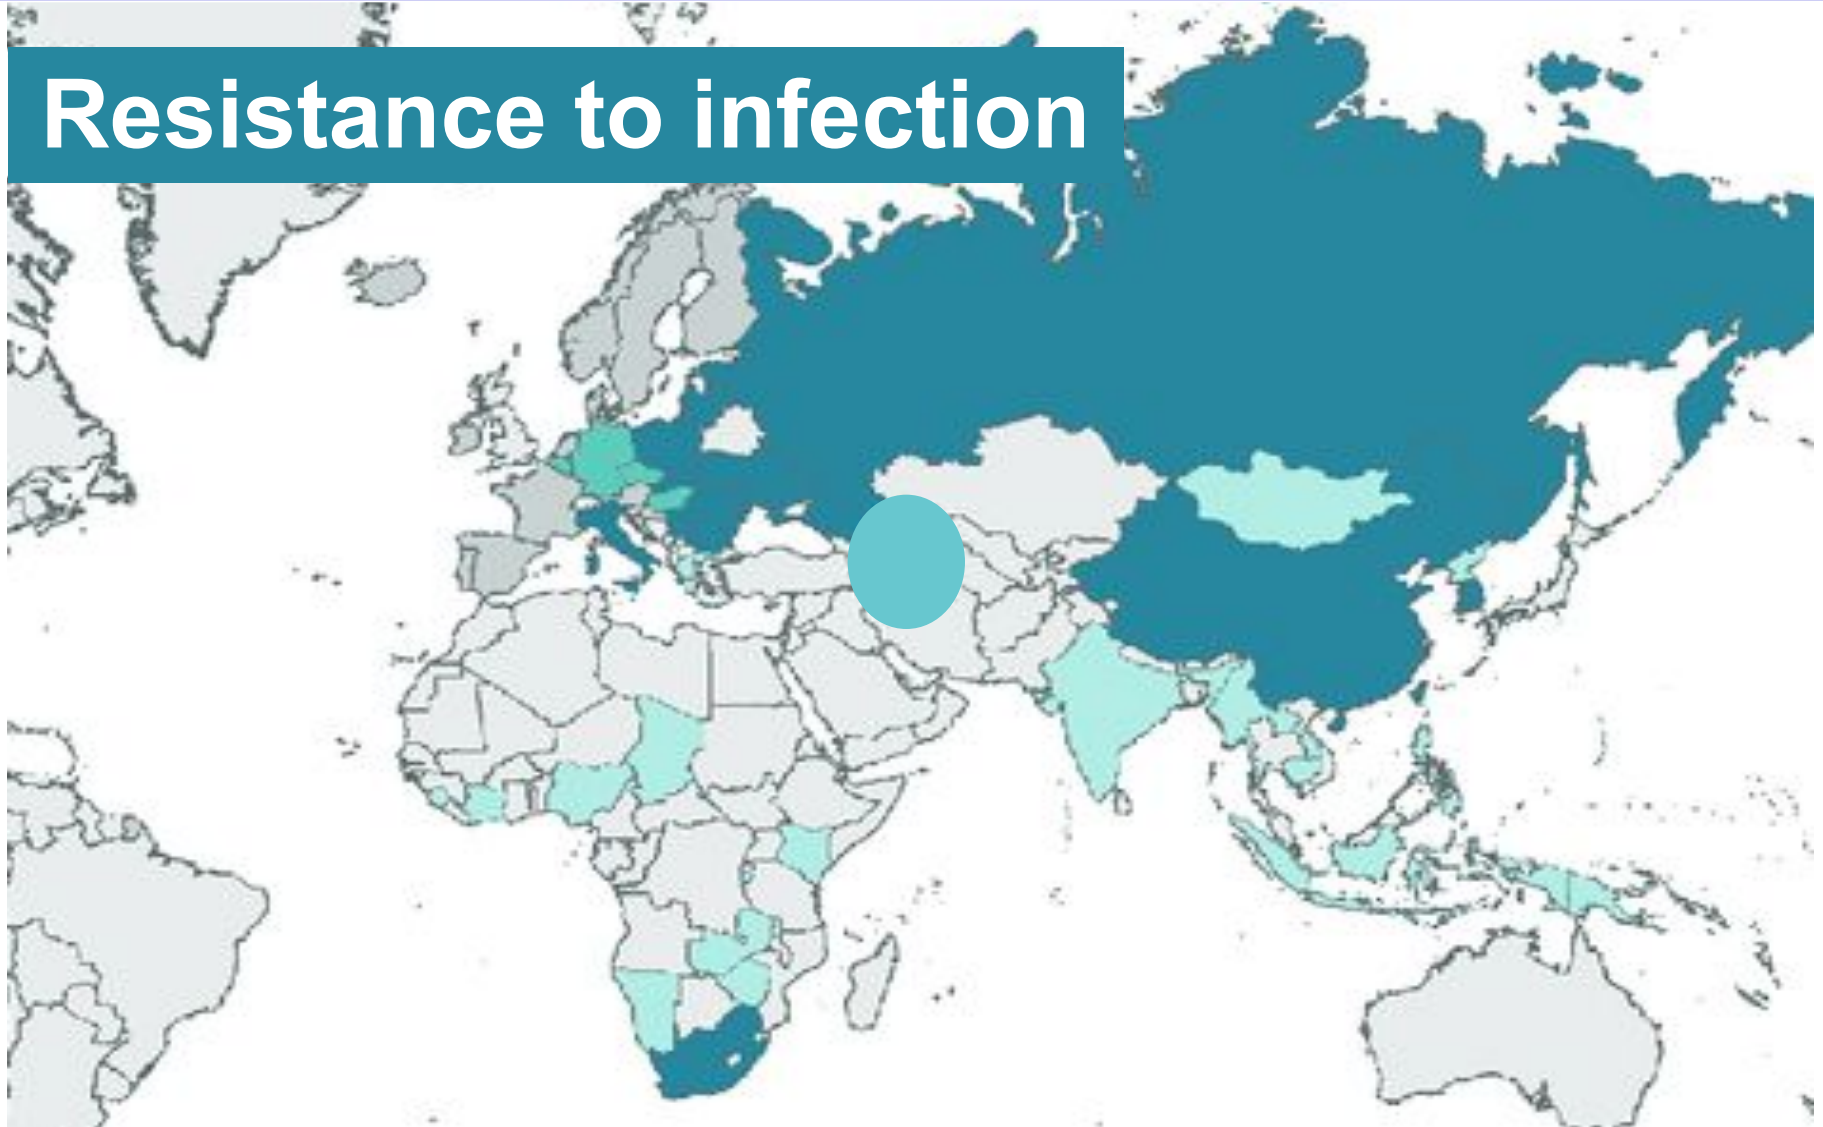

1. Global research

- Sustainable circular agriculture**
- Supply of organic fertilizer**
- Food safety**
- Resistance to infection**
- Fat and meat quality**

2. Strong cooperation and completion between industry and academia

African Pig Fever

Resistance to infection

Future for fatty pig project

- **Cooperation of global research**
 - **Resistance to infection**
 - **Food safety**
 - **Fat and meat quality**
 - **Fundamental biological properties**
- **Cooperation and completion between academia and industry**

**Thank you very much for
your attention!**
